

**PRESIDENT CHARLES H. MOYER, THE WOUNDED LABOR LEADER
- OF CALUMET MINERS, UNDER X-RAY**

This photograph of Labor Leader Moyer was taken Sunday in St. Luke's Hospital just after his wounds had been put under the X-ray machine and the bullets, fired by his persecutors, located. The photograph was made especially and exclusively for the readers of The Day Book by our staff photographer. It shows Moyer on the operating table beneath the X-ray. At Moyer's head is Yanco Terzich of the Executive Board of the Federation of Miners, and beside the machine is President John H. Walker of the Illinois Federation of Labor.
